PFAC Annual Report Form

Health Care For All (HCFA) advocates for health justice in Massachusetts by working to promote health equity and ensure coverage and access for all. HCFA uses direct service, policy development, coalition building, community organizing, public education and outreach to achieve its mission. HCFA envisions a day when everyone in Massachusetts has the equitable, affordable, and comprehensive care they need to be healthy.

Why complete an annual report for my PFAC?

Under Massachusetts law, hospital-wide PFACs are required to write annual reports by October 1st each year. These reports must be made available to members of the public upon request. As in past years, HCFA is requesting a copy of each report which will be posted on HCFA’s website, https://hcfama.org/pfac/. HCFA recommends using this template to assist with information collection, as well as the reporting of key activities and milestones.

What will happen with my report and how will HCFA use it?

We recognize the importance of sharing of information across PFACs. Each year, we:

- make individual reports available online
- share the data so that PFACs can learn about what other groups are doing

Who can I contact with questions?

Please contact us at atappan@hcfama.org or call us at 617-275-2982.

Please email completed forms to PFAC@hcfama.org.

Reports should be completed by October 1, 2021.

Our PFAC continued to participate in virtual opportunities and full membership on key committees, including quality improvement and patient safety teams, and governing boards. Including the Institutional Review Board, Patient Care Assessment Committee, Workplace Violence Committee, Patient Rights Committee and Infection Prevention and Control Committee.

In continuing with utilizing PFAC in keeping the patient and family voice in the forefront, our PFAC was instrumental in assisting the hospital as we developed new COVID-19 visitation guidelines, virtual visits for family and the development of new signage on the hospital campus to assist patients and visitors with wayfinding.

PFAC had two additional opportunities to work with other PFACs across the BILH system by participating in a follow up event on Universal Access Group Crisis Standards of Care engagement in October of 2020 and a forum on the impact of reverse transfers (when patients would be transferred from community hospitals to BIDMC for a procedure or specialty care and then transferred back to their home hospital for the rest of their stay). Both of these forums asked the PFAC to provide feedback and perspectives on how patients may feel about these concepts.
The perspectives from PFACs across the system is deeply valuable and our PFAC members have commented on having enjoyed participating in broader forums. We look forward to more opportunities to share knowledge and insights with other PFACs.
