

# **PFAC Annual Report Form**

Health Care For All (HCFA) advocates for health justice in Massachusetts by working to promote health equity and ensure coverage and access for all. HCFA uses direct service, policy development, coalition building, community organizing, public education and outreach to achieve its mission. HCFA envisions a day when everyone in Massachusetts has the equitable, affordable, and comprehensive care they need to be healthy.

## Why complete an annual report for my PFAC?

Under Massachusetts law, hospital-wide PFACs are required to write annual reports by October 1<sup>st</sup> each year. These reports must be made available to members of the public upon request. As in past years, HCFA is requesting a copy of each report which will be posted on HCFA's website, https://hcfama.org/pfac/. HCFA recommends using this template to assist with information collection, as well as the reporting of key activities and milestones.

## What will happen with my report and how will HCFA use it?

We recognize the importance of sharing of information across PFACs. Each year, we:

- make individual reports available online
- share the data so that PFACs can learn about what other groups are doing

#### Who can I contact with questions?

Please contact us at <a href="mailto:atappan@hcfama.org">atappan@hcfama.org</a> or call us at 617-275-2982.

Please email completed forms to <a href="PFAC@hcfama.org">PFAC@hcfama.org</a>.

Reports should be completed by October 1, 2022.

# 2022 Patient and Family Advisory Council Annual Report Form

The survey questions concern PFAC activities in fiscal year 2022 only: (July 1, 2021 – June 30, 2022).

## **Section 1: General Information**

## 1. Hospital Name:

NOTE: Massachusetts law requires every hospital to make a report about its PFAC publicly available. HCFA strongly encourages the completion of an individual report for each hospitals-wide PFAC.

16. The PFAC is undertaking the following activities to ensure appropriate representation of our membership in comparison to our patient population or catchment area: Ensuring appropriate representation of our membership is an ongoing priority for our PFAC. Our Patient Family Advisory Council is focused on building relationships with a diverse group of families, which includes families of varying races/ethnicities, socioeconomic statuses, and hospital experiences. The PFAC focuses recruiting efforts on garnering diverse voices from various socioeconomic, racial, ethnic, and hospital experience populations. The PFAC supplements the general call for PFAC candidates each year with targeted efforts to staff who have strong working relationships with various populations to solicit potential candidates.

Challenge 1: Sustain effective virtual engagement for PFAC  With the onset of Covid-19, our PFAC had to cease all in-person engagements, including our monthly meetings. As a group that both values and thrives upon face-to-face conversations, this presented a significant challenge. Our inperson engagements have been permanently transformed to Microsoft Teams meetings. This is a disappointment to our families who value the opportunity to raise awareness amongst SEMC staff and employees about what it's like to walk in the shoes of patients and families. In many ways, we have been successful in our transition to virtual operation, yet there is still significant work to be done, especially surrounding virtual recruitment/onboarding and support for new members, increasing the number of family engagement opportunities in virtual settings, and advocating for the reinstatement of a few engagement opportunities which hold great value for our families.				
Challenge 2: Diversity in membership				
Ensuring appropriate representation of our membership is an ongoing priority for our PFAC. Our Patient Family Advisory Council is focused on building relationships with a diverse group of families, which includes families of varying races/ethnicities, socioeconomic statuses, and hospital experiences. The PFAC focuses recruiting efforts on garnering diverse voices from various socioeconomic, racial, ethnic, and hospital experience populations. The PFAC supplements the general call for PFAC candidates each year with targeted efforts to staff who have strong working relationships with various populations to solicit potential candidates. Our ultimate goal is to be more representative of the patients and families receiving care at SEMC.
